

AMEY JAGANNATH JADHAV

Software Developer | Full Stack Developer (Python, React.js, FastAPI)

8433517958 | ameyjadhav2211@gmail.com | [amey-portfolio-murex.vercel.app](#)

[linkedin.com/in/amey-jadhav-6a677b28a](#) | Navi Mumbai, India

EXPERIENCE

Software Developer Intern

Vedant Info Edge India LLP

11/2025 - 02/2026

- Developed responsive, user-friendly web applications using React.js, JavaScript, HTML5, CSS3, and Bootstrap, improving frontend consistency across devices.
- Integrated REST APIs between frontend and backend systems to enable seamless data exchange and dynamic content rendering.
- Designed and managed MySQL databases, structuring schemas to support efficient CRUD operations and reliable data storage.
- Debugged and optimized existing application code to improve performance and reduce runtime errors.
- Collaborated with cross-functional Agile teams using Git and GitHub for version control, code reviews, and iterative feature delivery.

EDUCATION

Bachelor of Engineering in Artificial Intelligence & Machine Learning

Savitribai Phule Pune University

2026

PROJECTS

CodePilot-AI — AI-Powered Full Stack Code Review Platform

[code-pilot-ai-beta.vercel.app](#)

Tech Stack: React.js (Vite), JavaScript, FastAPI, Python, SQLAlchemy, Pydantic, PostgreSQL, Google Gemini API, Pylint, JWT Authentication, Render, Vercel

- Built a full-stack code review platform using React.js and FastAPI that enables developers to upload Python files and receive automated, intelligent code analysis.
- Integrated Pylint static code analysis with the Google Gemini API to generate combined AI-driven feedback on bugs, security risks, code complexity, and maintainability.
- Implemented secure user authentication and protected API routes using JWT Authentication and password hashing, safeguarding user data and application endpoints.
- Designed relational database schemas with PostgreSQL and SQLAlchemy and used Pydantic for robust request/response data validation across REST APIs.
- Deployed the frontend to Vercel and backend with PostgreSQL to Render, establishing a production-ready CI/CD-style cloud deployment workflow.

SUMMARY

Software Developer with hands-on internship experience building full-stack, scalable web applications using React.js, JavaScript, Python, and FastAPI. Skilled in developing and integrating REST APIs, managing relational and NoSQL databases (MySQL, PostgreSQL, MongoDB), and delivering responsive, user-friendly interfaces. Experienced in building AI-powered applications by integrating large language model APIs with backend services. Strong problem-solving ability, solid grasp of Object-Oriented Programming, and a proven track record of collaborating in Agile teams. Committed to continuous learning and staying current with modern software development practices.

SKILLS

Programming Languages

Python JavaScript SQL

Frontend

React.js HTML5 CSS3 Bootstrap
Tailwind CSS Responsive Web Design

Backend

FastAPI Node.js PHP REST APIs JWT Authentication

Database

MySQL PostgreSQL MongoDB

AI & APIs

Google Gemini API Artificial Intelligence
Machine Learning API Integration

Developer Tools

Git GitHub VS Code Postman Static Code Analysis

Deployment

Render Vercel Cloud Deployment

Concepts

Object-Oriented Programming CRUD Operations Database Management
Scalable Applications Agile Development
Debugging Problem Solving

Personal Portfolio Website

amey-portfolio-murex.vercel.app

Tech Stack: React.js, JavaScript, HTML5, CSS3, Vercel

- Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills, and professional experience.
- Built reusable React.js components to maintain consistent design and streamline future content updates.
- Implemented responsive layouts and optimized performance for fast load times across devices.
- Integrated continuous deployment from GitHub to Vercel, enabling automatic updates on every code push.
